

# BABY2BABY FAMILY2FAMILY

Baby2Baby's Family2Family program, our version of adopt-a-family, gives our generous donors the opportunity to make a direct impact on the lives of the children living in poverty we serve by gifting them their most needed items for the holiday season.

## PROGRAM OVERVIEW

For these families, providing the basic necessities every child deserves is nearly impossible, especially with rising inflation and any leftover funds going toward paying for food and shelter.

Baby2Baby will match participants with a child living in poverty to provide their holiday wishes and winter needs. With every match, a child in Baby2Baby's program will receive the basic essentials they deserve but would otherwise go without. When Baby2Baby provides the children we serve with basic essentials, it allows their families to focus their extremely limited funds on other necessities.

Donors will be provided with the child's sizing information and their most wished for item for the holiday season!

Family2Family has provided thousands of children with the essentials they desperately need every holiday season. It is with the support of donors like you that our program has seen tremendous success and continues to impact more children every year. With your help, we can continue to bring joy to the lives of these deserving families at the holidays.
